

The Groucho Club, London. Thanks to VBK.

- Narrow lenses for a great wall wash performance.
- Integral control gear
- Simple inter connections and through wiring
- IP66 rated
- Uses the latest Luxeon® K2 LED's
- Thermal feedback circuit
- Special options for up to 60°C ambient

This new profile in the CL range of linear LED systems takes a bold step forward by incorporating the control gear within the fitting. This makes for much simpler installation as only the mains supply needs to be provided. The units can be interlinked simply and mounted next to each other in a line, with no gap in the lighting effect on the surface.

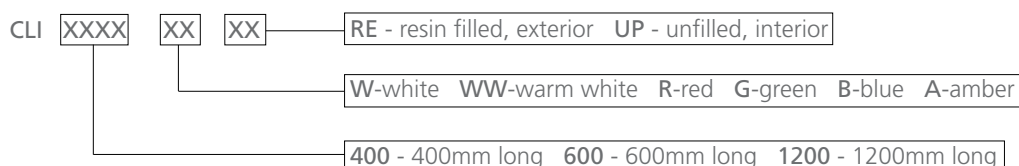

**CLI Module**

Material	Aluminium alloy
Finish	Clear anodised
LED	350mA Luxeon® K2
Cable Length	3 metres
Power Supply	Integral
